AIDS and hemophilia, 265
Accident prevention, child, current controversies in, 782
Acidosis, hyperchloremic metabolic, cholestyramine induced, 271
Acidosis, the myth of spontaneous idiopathic lactic, 771
Acromegaly, dilated cardiomyopathy in, 79
Acute and chronic viral hepatitis revisited, 88
Acyclovir treatment of herpes zoster associated encephalitis, 43
Adrenal insufficiency, acute, and heparin, 454
Allergen-specific IgE responses in 341 allergic patients, 421
Allergens and allergen groups in 341 allergic patients, 421
Aminoglycoside monitoring in neonates: a re-appraisal, 457
Amiodarone, disabling neurological complications of, 300
Amyloidosis, generalized, associated with Takayasu's disease, 343
Anemia, aplastic, and acute leukemia: a possible relationship with sulindac therapy? 455
Angina pectoris, long-term monotherapy with diltiazem, 221
Anti-Ro (SS-A) antibodies and congenital complete heart block, 767
Antithymocyte globulin, successful treatment of gold-induced bone marrow aplasia, 253
Arrhythmogenic right ventricular dysplasia: clinical, electrophysiological, and pathological features, 634
Arthritis, Yersinia reactive, three cases, 331
Ascorbic acid ingestion, high dose, and iron overload, 270
Ascorbic acid intake, renal function, and urinary oxalate excretion, 353
Aspirin tablets, overdoses of, and transient hypercalcemia, 364
Asthma due to insecticide sensitivity, 66
Asthma, large lungs after: a consequence of enlarged airspaces, 427
Asthmatics, ventilatory control in two, resuscitated from respiratory arrest, 82
Astrocytoma, metastatic, 745
Atrial or atrioventricular sequential pacing, importance of, in right ventricular infarction, bradyarrhythmias, and cardiogenic shock, 52
Atrial tachyarrhythmias after cardiac surgery: results of disopyramide therapy, 27

Balloon pump action, intra-aortic, sheath impaction as a cause of defective, 33
Beriberi, the myth of spontaneous idiopathic lactic acidosis, 771
Biopsy, needle muscle: will it make open biopsy obsolete? 199
Bodily habitus and mitral valve prolapse, 326
Bone marrow aplasia, gold-induced: successful treatment with antithymocyte globulin, 253
Branhamella catarrhalis: a respiratory tract pathogen, 579
Bromocriptine therapy, long term, may restore the inhibitory control of prolactin release in some patients with pathological hyperprolactinemia, 213
Bronchitis, chronic, and emphysema, evaluation of domiciliary treatment with terbutaline by wet nebulisation in patients with, 230
Bronchoalveolar lavage, 659
Bruton's X-linked hypogammaglobulinemia, central nervous system echovirus infection in, 443

Campylobacter infection and Guillain-Barré syndrome, 269
Captopril therapy, diagnostic renal vein measurements obscured by, and juxtaglomerular tumour, 755
Captopril-induced natriuresis, polyuria, and acidification defect after renal transplantation, 362
Carbon monoxide diffusing capacity, role of, in the early detection of major bleomycin-induced pulmonary toxicity, 235
Carcinoma of the urinary bladder in patients receiving cyclophosphamide, 87
Carcinomatous microembolism causing subacute pulmonary hypertension, 268
Cardiac tamponade following infarction: management with pericardiocentesis and surgery, 446
Cardiac transplantation, patient selection for, 691
Cardiomyopathy, dilated, in acromegaly, 79
Carotid body, structure and function of, 775
Carotid territory ischemia and intravenous digital subtraction angiography, 590
Carrier detection antenatal diagnosis, characterisation of the molecular basis for hemophilia B, and a factor IX gene probe, 721
Cause of death data, quality of, for young Australian men, 609
Cefoperazone and netilmicin in the treatment of urinary tract infections, 22
Central nervous system echovirus infection in Bruton's X-linked hypogammaglobulinemia, 443
Central nervous system, non-Hodgkin's lymphoma involving, 16
Charcoal hemoperfusion treatment of severe theophylline toxicity, 75
Child accident prevention, current controversies in, 782
Childhood and adolescence, food intake in, and risk of later disease, 478
Chlamydial endocarditis, 340
Cholangitis, recurrent, caused by hepatocellular carcinoma, 761
Cholesterol, time to treat seriously, 268
Cholestyramine induced hyperchloremic metabolic acidosis, 271
Chronic idiopathic megaduodenum in a family, 1
Chronic relapsing myalgia (post viral), 305
Cigarette smoking, effect of, on gastric acid secretion and gastric mucosal blood flow in man, 417
Cimetidine and ranitidine, influence of, on ethanol pharmacokinetics, 359
Cimetidine treatment, relapse of duodenal ulcers after, 291, 367
Claudication, intermittent: a double-blind crossover trial of pentoxifylline, 402
Clinico-pathological Conference at Austin Hospital, 461
Colitis, ulcerative, nasal mucosal involvement in, 50
Control of cardiac valve related hemolytic anemia by sulphinpyrazone, 645
Coronary hemodynamic effects, acute, of equi-hypotensive doses of nisoldipine and diltiazem, 685
Corynebacterium pseudotuberculosis abscesses in a young butcher, 85
Crocidolite millers and miners, benign and malignant pleural effusions in former, 731
Cutaneous vasculitis from maprotiline, 256
Cyclophosphamide, carcinoma of the urinary bladder after, 87
Cytarabine syndrome in adults, 451
Cytarabine, low dose, in acute non-lymphoblastic leukemia, 10

Debrisoquine and theophylline, normal metabolism of, in a slow tolbutamide metaboliser, 348
Depot-glucagon in the treatment of McArdle's disease, 748
Desferrioxamine and life-threatening sepsis, 654
Diabetics with "secondary failure" of oral hypoglycemic agents, insulin secretion and immuno-genetic markers in, 209
Diagnostic challenge of euthyroid hyperthyroxinemia, 277
Digitalis, 1785-1985, 679
Diltiazem, long-term monotherapy of angina pectoris with, 221
Dirofilariasis, pulmonary, diagnosed by computerised tomography scan controlled percutaneous needle aspiration, 656
Disopyramide therapy and atrial tachyarrhythmias after cardiac surgery, 27

Duodenal ulcer relapse rate and choice of ulcer healing agent, 291, 367
Duodenal ulcers, relapse after cimetidine treatment, 291, 367
Dysplasia, arrhythmogenic right ventricular: clinical, electrophysiological and pathological features, 634

Echovirus infection in Bruton's X-linked hypogammaglobulinemia, 443
Electrocardiography, signal averaged role of in the investigation of unselected patients with syncope, 697
Emphysema, subcutaneous: a rare complication of fibreoptic sigmoidoscopy, 47
Encephalitis, herpes zoster associated, treated with acyclovir, 43
Endocarditis, chlamydial, 340
Epiglottitis, acute, in childhood, 83
Ethanol pharmacokinetics, influence of cimetidine and ranitidine on, 359
Euthyroid hyperthyroxinemia, the diagnostic challenge, 277
Exercise testing after myocardial infarction, 392
Extracranial-Intracranial Bypass Study: how will the outcome affect us? 386

Factor IX gene probe, use in carrier detection, antenatal diagnosis, and characterisation of the molecular basis for hemophilia B, 721
Fecal occult blood, immunochemical detection of, 81, 453
Fever, debilitating, of unknown origin, and indomethacin therapy, 270
Fibreoptic bronchoscopy, use of, with sterile catheter in the diagnosis of pneumonia, 309
Fibreoptic sigmoidoscopy complicated by subcutaneous emphysema, 47
Fibroblast interferon, human, with acute leucopenia, 365
Fine needle marrow aspiration, 272
Food intake, patterns of, in childhood and adolescence and risk of later disease, 478
Forensic clock, is the stomach a useful? 273

Gastric acid secretion and gastric mucosal blood flow, effect of cigarette smoking on, 417
Glomerulonephritis induced by hepatitis B, fact or fiction? 356
Glue sniffing neuropathy, 293
Gold-induced bone marrow aplasia: successful treatment with antithymocyte globulin, 253
Graves' ophthalmopathy, optic nerve involvement in, 258
Guillain-Barré syndrome associated with *Campylobacter* infection, 269

Heart block and respiratory syncytial virus, 55
Heart block, congenital complete, and anti-Ro (SS-A) antibodies, 767
Heart block, infantile complete, associated with maternal Ro(SS-A) ribonucleoprotein autoantibodies, 58
Heavy metal chelation therapy with desferrioxamine, life-threatening sepsis complicating, 654
Hemodynamic determinants of myocardial oxygen demand or enzymatically determined infarct size, failure of pindolol to reduce in acute myocardial infarction, 704
Hemolytic anemia, cardiac valve related, and sulphinpyrazone, 645
Hemophilia and AIDS, 265
Heparin-associated acute adrenal insufficiency, 454
Hepatic failure, zinc abnormalities in fulminant, 7
Hepatitis B induced glomerulonephritis, fact or fiction? 356
Hepatitis B infection and risk factors in antenatal patients, 641
Hepatitis B transmission within families: potential importance of saliva as a vehicle of spread, 717
Hepatitis B vaccination, successful, by deltoid injection after failure in the gluteal site, 772
Hepatitis B virus exposure and tattooing, 769
Hepatitis, acute and chronic viral, 88
Hepatocellular carcinoma and recurrent cholangitis, 761
Herpes zoster and paralysis, 712
Herpes zoster associated encephalitis treated with acyclovir, 43
Histiocytosis X, primary hypothyroidism and essential hypernatremia in a patient with, 72
Human retroviruses, 375
Hypercalcemia and hypophosphatemic rickets, hyperparathyroidism and hyperthyroidism, 650
Hypercalcemia, transient, following overdoses of soluble aspirin tablets, 364
Hypernatremia, essential, and primary hypothyroidism with histiocytosis X, 72
Hypernatremia, essential, disordered thirst and blood pressure control, 751
Hypersensitivity, acute, to ingested processed pollen, 346
Hypertension, atherosclerotic renovascular, and quantitative renography, 617
Hypertension, treating mild, 677
Hypophosphatemic rickets, hyperparathyroidism and hyperthyroidism with hypercalcemia, 650
Hypothyroidism, primary, and essential hypernatremia with histiocytosis X, 72

Idiopathic megaduodenum, chronic, in a family, 658
Imipenem in the treatment of Legionella pneumonia, 456
Immunochemical detection of fecal occult blood, 81, 453
Indomethacin therapy to control debilitating fever of unknown origin, 270
Infantile complete heart block associated with maternal Ro(SS-A) ribonucleoprotein autoantibodies, 58
Infarction and cardiac tamponade: management with pericardiocentesis and surgery, 446
Insecticide sensitivity, asthma due to, 66
Insulin secretion and immuno-genetic markers in diabetics with "secondary failure" of oral hypoglycemic agents, 209
Intravenous digital subtraction angiography in patients with carotid territory ischemia, 590
Intravenous pulse methyl prednisolone in the successful treatment of severe sarcoid polyneuropathy with pulmonary involvement, 45
Iron overload associated with congenital pyruvate kinase deficiency and high dose ascorbic acid ingestion, 270

Judgment, measuring physicians'; use of clinical data by Australian rheumatologists, 738
Juxtaglomerular tumour: diagnostic renal vein measurements obscured by chronic captopril therapy, 755

Lactic acidosis, the myth of spontaneous idiopathic, 771
Lavage, bronchoalveolar, 659
Legionella pneumonia and imipenem, 456
Legionella pneumophila serogroup 6, isolation of, in Australia, 86
Legionella pneumophila and water temperatures in Australian hospitals, 38
Leucopenia, acute, with human fibroblast interferon, 365
Leukemia, acute non-lymphoblastic, low dose cytarabine in, 10
Light chain isotype suppression in monitoring myeloma, 629
Light-chain myeloma with renal failure, long-term survival in, 361
Liver disease, treatment of refractory ascites in patients with, 469
Lungs, large, after childhood asthma: a consequence of enlarged airspaces, 427
Lymphokines, monokines, and other cytokines, 287
Lymphoma, non-Hodgkin's, involving the central nervous system, 16
Lymphoma, rapidly progressive fatal pulmonary infiltration by, 62

Maprotiline, cutaneous vasculitis from, 256
Marrow aspiration, fine needle, 272
McArdle's disease, treatment with depot-glucagon, 748
Megaduodenum, chronic idiopathic, in a family, 1, 658
Metabolism, normal, of debrisoquine and theophylline, in a slow tolbutamide metaboliser, 348
Metastatic astrocytoma, 745
Microbial contamination of domiciliary nebuliser therapy equipment, 585
Mitral valve prolapse, and bodily habitus, 326
Monitoring myeloma: light chain isotype suppression, 629
Myalgia, chronic relapsing, 305
Myeloma, monitoring: light chain isotype suppression — a new parameter, 629
Myocardial infarction and exercise testing, 392
Myocardial infarction, acute, failure of pindolol to reduce the hemodynamic determinants of myocardial oxygen demand or enzymatically determined infarct size, 704
Myocardial infarction, inferior, long term follow-up and precordial ST segment depression, 681

NH & MRC project grants for 1982, analysis of distribution, 87
Naloxone, a double-blind trial of, for chronic biliary-type pain, 449
Nasal mucosal involvement in ulcerative colitis, 50
Nebuliser therapy equipment, domiciliary, and microbial contamination, 585
Needle muscle biopsy: will it make open biopsy obsolete? 199
Nephropathy, reflux, 668
Netilmicin, comparison with cefoperazone for the treatment of severe or complicated urinary tract infections, 22
Neurological complications, disabling, of amiodarone, 300
Neutropenia, new concepts in management of, 93
Nisoldipine and diltiazem, equi-hypotensive doses of, and acute coronary hemodynamic effects, 685
Non-Hodgkin's lymphoma involving the central nervous system, 16
Nutritional status in hospital inpatients: implications for nutritional support services, 435

Opioid biology: the next set of questions, 98
Optic nerve involvement in Grave's ophthalmopathy, 258
Osteocalcin, plasma, in man, 410
Overdoses of soluble aspirin tablets and transient hypercalcemia, 364

Pacing, initial experience with physiological, 246
Paralysis in herpes zoster, 712
Paraparesis with hemoglobin E-β thalassemia, 263
